

Practical No.1

Aim: Install Selenium IDE, Write a test suite containing minimum 4 test cases for different formats.

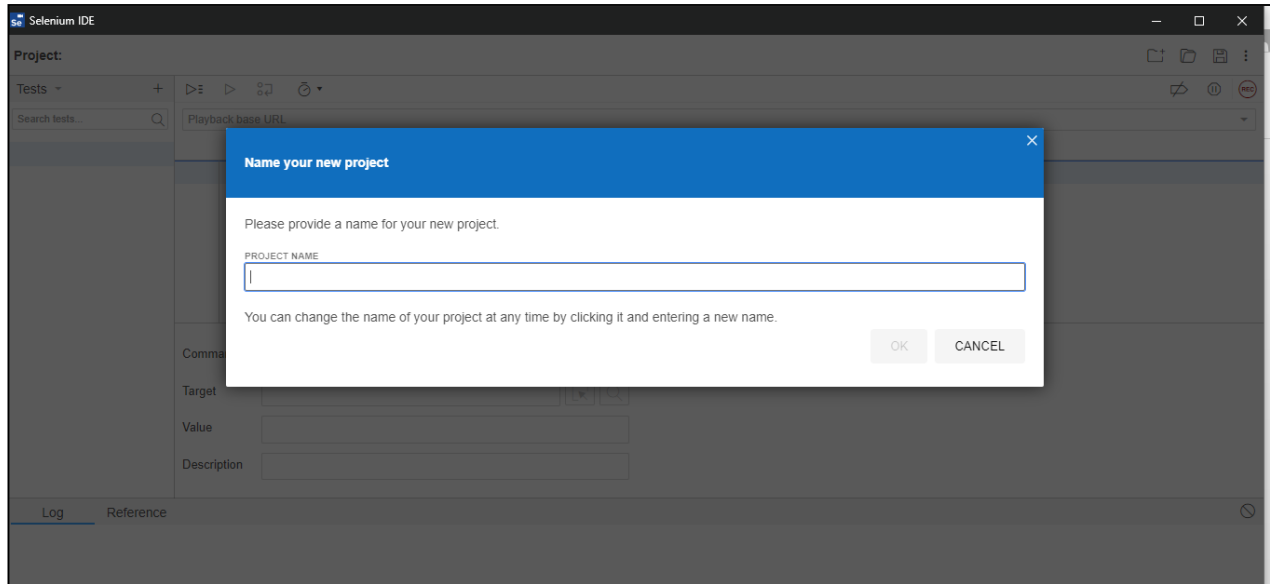

Step 1: Search Selenium IDE Extension in Firefox > Add the extension to the browser.

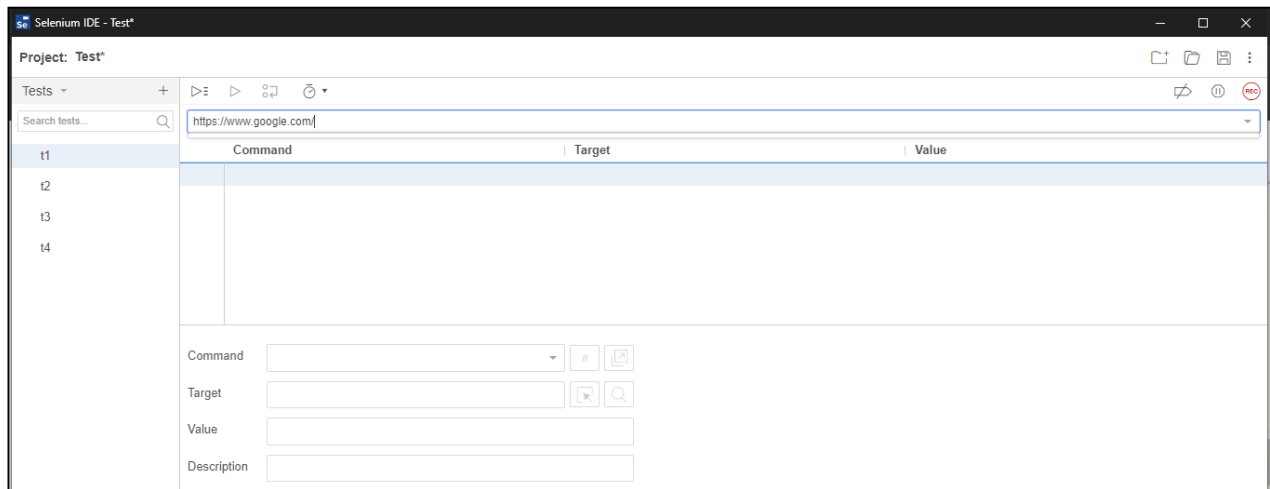

Step 2: Select the Selenium IDE and click on create a new project.

Step 3: Give project name.

Step 4: Click on '+' to add 4 test cases > Paste the URL of google.com

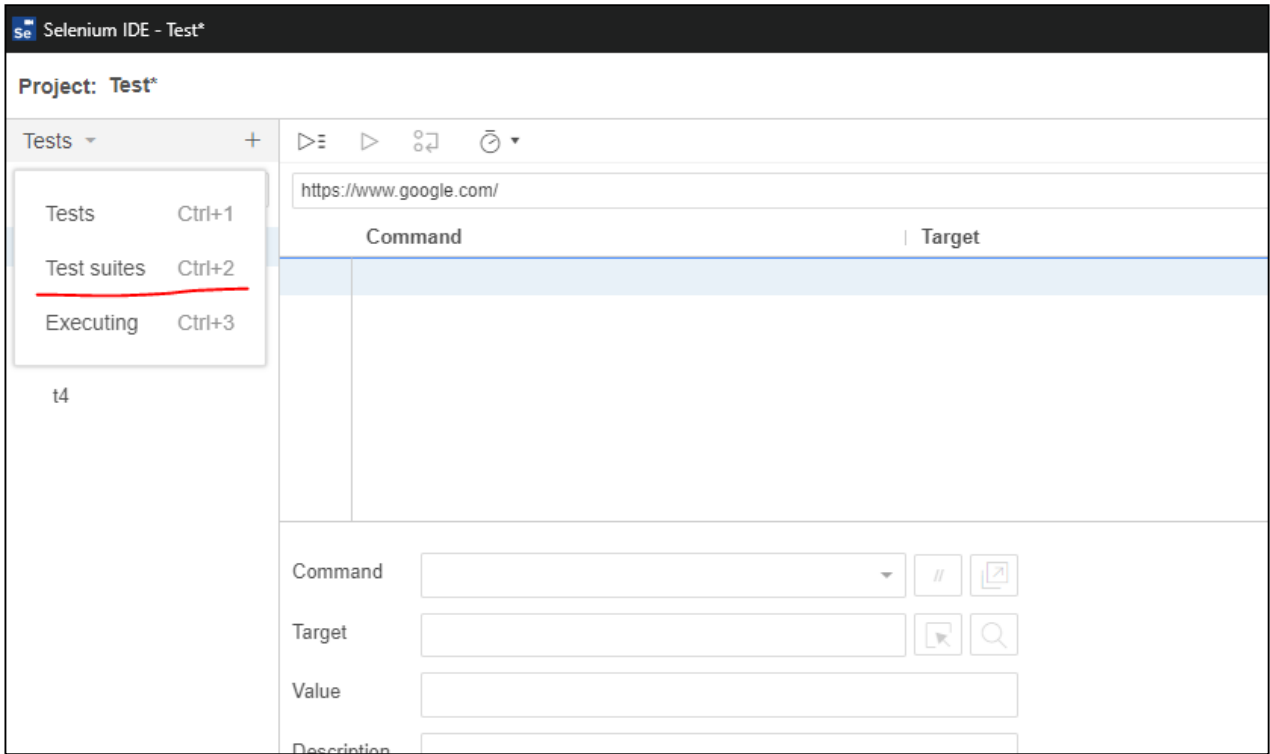

Step 5: Start Recording.

It will direct you to google.com web page where your activity will be recorded.

Step 6: Click on Stop Recording. (It will successfully create a test case)

Step 7: Similarly do for test cases t2, t3 and t4

Step 8: Select Test Suites and add all test cases

Step 9: Select a test case > Press Run all tests.
